Education

University of Waterloo **Expected May 2031**
Bachelor of Computer Science *Waterloo, ON*

A.Y. Jackson Secondary School
High School Diploma — 98% Average *Toronto, ON*

- Debate Club President, Computer Science Award, University of Toronto National Book Award

Experience

Co-operators — Andy Chow & Associates Inc. **June 2025 – Aug. 2025**
Administrative Intern

- Digitized and maintained 2,500+ client policy files, improving record accuracy.
- Logged client interactions in Salesforce CRM to streamline renewal follow-ups.
- Cold-called potential clients to generate new leads.

Etsy **May 2024 – Jan. 2026**
Founder, Slime Business

- Launched an e-commerce slime business in grade 10, growing to 300+ handmade formula, texture, and colour combinations.
- Produced ASMR packing videos and custom thumbnails to market products and handle inquiries.
- Designed custom sensory-friendly formulas for neurodiverse customers.

Projects

BOSCO | *Node.js, JavaScript, Python, PostgreSQL, Gemini API* **Oct. 2026**

- Built a drone-based wildfire rescue-lead engine ; projected person detections into GPS positions with modeled 95% uncertainty ellipses and merged multi-angle sightings to refine locations.
- Designed an incident dashboard with fire-spread timeline playback, a fleet camera carousel, and human-reviewed rescue leads; routed searches along the predicted fire perimeter in a simulated 4-drone replay.
- Built retry-safe observation APIs; added database reconnection and Gemini backup-model switching to keep the system running through the live demo.

Scrollganize | *TypeScript, Preact, SQLite WASM, Chrome MV3, Vitest, Playwright* **Sept. 2026**

- Co-developed a local-first Chrome extension that scans TikTok Favorites, making saved videos searchable by caption, creator, hashtag, and collection; verified on live TikTok.
- Built platform adapters, typed RPC, and an offscreen SQLite/FTS5 worker; met a 50ms p95 search budget on 15/18 workloads over a 50,000-video library.
- Shipped with 613 tests, parser fuzzing, and 143/143 mutation coverage via GitHub Actions CI.

Yours2Learn | *Python, React Native, MongoDB, Solace Agent Mesh, Sentry* — 3rd Place, Sentry Track **uOttaHack 2026**

- Co-built an AI e-learning tool using webcam eye-tracking to infer engagement and adapt lessons in real time.
- Orchestrated multiple AI models via Solace Agent Mesh to generate personalized lessons, quizzes, and study recommendations.
- Stored engagement scores in MongoDB Atlas to prioritize the highest-performing AI configurations.

Technical Skills

Languages: Python, Java, C, HTML/CSS, JavaScript, TypeScript, SQL
Developer Tools: VS Code, Eclipse, Google Cloud Platform, Android Studio, Git
Technologies/Frameworks: Linux, Jenkins, GitHub, JUnit, Chrome Extension APIs, Node.js

Awards & Honours

5x Canadian Scholastic Art & Writing Award recipient — Scholastic, Jan. 2026

Silver Champion, York University Summer Debating Tournament — Jun. 2025

3rd Top Speaker, University of Waterloo Spring Debate Tournament — May 2025

1st Place, International Style Debate Competition — May 2023
